Vol. 5 Thur., June 26 No. 25  
Jock McIntyre, Editor

The natives are all out scanning the skies these days for rain clouds, and believe us if the heat of the last few days should continue we are going to be badly in need of rain very shortly. Wheat has done so much stooling that it is going to take a lot of moisture to carry it through.

See us if you want a good used car, we have a large assortment to choose from and we must reduce our stock for lack of space.

The Victory Loan 1941 is a closed incident and the Champion-Carmangay unit did themselves proud and we say thank you folks, it was a grand response from this district.

For a good looking job at a reasonable cost there is nothing that will beat Flow Easy house paint. It is a paint that will stand the gaff because it is made of fine products in the correct proportions.

The O. E. S. ladies had a very successful tea and supper last Saturday and made some \$45.00 for the Red Cross funds. They wish to thank the public for the fine support given them.

Let us explain to you the "Rollaver" washing action of the new Dominion washer which also has the "Perma Seal" power unit lubricated for life.

It seems that some of the boys undertook the job of officially closing up the Victory Loan last Saturday and there was thereby some new singing talent discovered.

For those swarms of moths that ruin the mantles on the lamp, use Shelltox. It's a wonderful killer and has a very pleasant aroma too.

Pete Holm has been around with a petition getting signers for the enlargement of Carmangay hospital area. He reports success and says he is being well received.

Get the bugs before they get your spuds, use Paris green from our store.

## Victory Loan Campaign 1941 Brings \$806,000,000

OTTAWA, June 23. — Canada's Victory Loan, 1941 passed the record of all victory loans of the First Great War when, at the close of operations Saturday, the grand total of subscriptions was \$710,958,950, Finance Minister Isley announced last night.

To this total which includes all cash subscriptions Mr. Isley said there must be added conversions amounting to \$85,875,050.

"Thus the grand total of cash and conversions at the close of business Saturday was \$806,834,000," said the finance minister.

"The total amount subscribed exceeded even 1918, the greatest of all victory loans of the First Great War when \$707,000,000 was subscribed."

Minimum objective in the campaign which opened last June 2 and closed at midnight Saturday night was \$800,000,000.

Mr. Isley said counting cash and conversions together, approximately one person in every 13 in Canada had subscribed to the 1941 Victory Loan.

Said Mr. Isley: "No fewer than 91,885 individual subscribers completed orders Saturday for \$42,989,080. The cumulative total of subscribers at the close of business Saturday was 851,098.

The number of subscribers on Saturday more than doubled the daily average for the campaign. All subscriptions duly recorded or postmarked before midnight Saturday, June 21, will be accepted.

"The huge total of individual subscriptions indicates beyond any question that there must have been a very large number of people of modest means who, in subscribing, actually made patriotic sacrifice.

"To them all I wish to address a message of profound appreciation and cordial thanks."

The total of subscriptions to the 10-year maturity of Victory Loan 1941 was \$631,641,600 and the total of subscriptions to the short-term maturity was \$175,193,000.

### SCRATCHING GRAVEL ON OUR FARMS

"In homely terms it is then—what matter if, when this war is over, we scratch gravel, provided it is our own gravel; what matter if we find ourselves poor, provided our poverty is of that honest kind, the sharing of which invokes the true and equal dignity of man." These words were spoken by a great patriot, Robert Menzies of Australia, in an address broadcast from New York, when he urged the need of sacrifice on the part of every citizen of the British Commonwealth, in order that the cause of freedom shall prevail.

Scratching gravel is indeed a

homely term, one readily understood by the farmer who "scorns not with sun-browned hands to scrape acquaintance with his lands." Fortunate is the farmer who lives in a country where he can till his acres of his own free will and reap for himself and household the reward of his toil. To preserve this freedom is worth some sacrifice. If so much it is worth is realized fully and bitterly by farmers of continental Europe, who have lost it and are now no better than serfs.

### BAYLOR'S COURAGE

Courage is required in these days to do what Baylor University has done. In an effort to "combat the rising tide of smoking on the part of high school graduates," its president, Pat M. Neff, former Governor of Texas, has announced rigid no-smoking rules for women students. Beginning next fall "high school girl graduates who

have contracted the habit of smoking will not be admitted." Those applying for admission are being pledged not to smoke. Baylor, a noted denominational school in Texas, now close to a century old, has a high standing of scholastic excellence. Evidently it seeks to inculcate good morals, as well as learning. It may be argued that whether one smokes or not is a matter for personal decision—even among 18-year-old high school graduates. But not many high school children smoke with their parents' permission. And certainly Baylor—or any college—is privileged to set non-smoking standards, while the opportunity of attending should be on incentive to students to refrain.
